

A LETTER TO OUR READERS

53 Cottage St Melros Mass

January 1 1904

Dear Sir
Ever since I was in the Army I had more or less kidney trouble and within the past year it became so severe and complicated that I suffered everything but was much relieved — my strength and power was fast leaving me. I saw an advertisement of Swamp Root and while asking for advice I began the use of the medicine and noted a decided improvement after taking Swamp Root only a short time.

I continued its use and am thankful to say that I am entirely cured and stronger than ever. I would like to tell you about this. I had a doctor examine some of my water today, and he pronounced it all right and in splendid condition.

I know that your Swamp Root is pure, vegetable and does not contain any harmful drugs. Thanking you for my complete recovery and recommending Swamp Root to all sufferers I am

Very truly yours

HE WOULD SLEEP
AGAIN

HARRY B. BELDEN DROPS INTO
A HUMOROUS
VEIN.

"AND THE CITY SLEPT ON."

(Air: "Anvil Chorus.")
Who are these, Henry that
Disturb my sleep
With these unseemly shouts
Of "Progress?"

"Dredge the harbor"
Or its mud?
Why, they'd sling it at you,
My dear Henry.
"Invite commerce?"
What the h— do we want commerce
for?

Send it to Los Angeles.
Instead of a meekly
Fifteen thou,
She'd spend millions
To get it.

But then,
Foolish city.
She lets the boosters
Keep her awake
All

The
Time,
While I
Thanks to you,
Faithful Henry.
May

Still
Shumber
On,

"Build wharves?"
And then have ships
Come up.
Donkey engines puffing and chugging.
Lumber falling,
Coal clattering,
And the stevedores' coarse
"Heave ahoy."

Why?
How could any one
Sleep
Amid such devilish din?
Absurd!

"Sewers?"
What! More drainage?"
Why, Dingee's already drained me dry
As Indian Creek
Looked

To John Nichol's eye.
"A Necessary
Sanitary Measure?"
Rats!

I'm so healthy
Now
I can't keep
The census
Down.

And more of these
Progressive people
Means more
Industrial hum,
Hustle,
Bustle.

And all the noisy clamors
That do murder sleep.

"A Polytechnic School?"
To make mechanics
Of our youths
And train them
In the use
Of compass, drill and
Hammer?

Make them so expert
In the use
Of latter tool
They soon would rival
You, my dear Henry?

No! No!
These must not fly
Their trades.
Think how

The whir of wheels,
The swish of saws,
Would annihilate
Rest!

"Playgrounds
For our children?"
What!

The patterning of little feet,
Merry romping
And
Ruddling rivers of lauging

To break
My
Sweet somnolency?
Away with them!

Besides,
What care my
Two Henrys
For such things.
They've no use

For children
And, for
One of them,
It's said,

He hath good reason
For such dislike.

Drive back
These
Wild,
Deluded
Progressors.
Shake at them
Your assessments
And hurl
The cry
Or

"Contra Costa Water Co."
Dissatisfied decline
Their proffered challenge
And check
Of thousands ten.
Show 'em

You've no purpose selfish—
Not out for gain
Nor

The "dough."
O,
No!

But to save
The poor taxpayer

Ah!
Great politics
Was that,

SUIT SALE EXTRAORDINARY

VALUES WITHOUT PRECEDENT

Two weeks ago our New York Office bought for us one hundred and ten suits at a price concession very unusual for this time of year. The reason for the low figure at which they were offered was not far to seek. The manufacturer found his suits too light in weight for the sharp Eastern winter. Our buyer knew that would be a point in their favor in California and snatched them up.

These suits came yesterday, but cannot be ticketed until tomorrow. We are filling in sizes from our own stock and will place them — one hundred and forty-three in all — on sale Saturday morning at prices almost extraordinary. Particulars will be given in tomorrow's paper.

HE IS SOUNDING POWERS

President Roosevelt Would Like a Peace Congress.

ST. PETERSBURG, September 29.—While considerable public interest has been aroused by the reports that President Roosevelt is bound to the powers as to the advisability of calling another peace conference at The Hague, no intimation of such a purpose has yet been officially conveyed to Russia, either through Ambassador Cassini or Ambassador McCormick. In official circles the disposition on is not considered to be exactly opportune.

The Russian government, naturally, is greatly interested in the tribunal which owes its existence to Emperor Nicholas' initiative, and under ordinary circumstances would welcome anything to forward its claims, but it is pointed out, that during the war it would hardly be considered with favor. The neutral powers would, of course, desire to limit the activity of the belligerents.

Russia admits that there are many questions growing out of the war in the Far East which would profit all the powers to definitely settle and she is in favor of a conference at the close of the war.

strains of the warships' bands and the big steel hull rode safely on the waters.

Owing to the rumors of the last few days of an attempt to wreck the new ship at the launching, there was intense feeling of suspense among the spectators and the officials and employees at the Navy test something should mar the impressiveness of the ceremony, but everything went off well.

SISTER SHIP.

The Connecticut is a sister ship of the Louisiana and both vessels were authorized by an act of Congress in 1802. The Connecticut was built in a Government yard and under Government supervision, while the Louisiana was built by a private shipbuilding firm at Newport News, Va. The construction of both ships has been followed with keen interest as the Connecticut is 300 tons larger than the

was recognized that it was a test of the Government's ability to cope with private enterprise. Much depended on this competition of construction, for if the Connecticut is completed before the Louisiana, then most of the Government's shipbuilding will be done by the latter and it is expected the New York Navy Yard will be the shipbuilding center for Government work.

POWERFUL BOAT.

The Connecticut when finished will be the finest and most powerful boat in the American navy and will rank with the most powerful battleships of the navies of other nations. Notwithstanding the fact that a new plant had to be created for the construction of the Connecticut, this vessel is but eight per cent behind the Louisiana although laid down two months later.

The last vessel of any size ever constructed at the New York Navy Yard was the ill-fated battleship Maine.

The keel of the Connecticut was laid down on March 10, 1893, the steel was erected on July 20th, the armor placed aboard April 24 and the first boiler shipped on July 7.

The Connecticut is of steel with a trial displacement of 16,000 tons and a maximum displacement of 17,770 tons. The vessel is 450 feet on the load water line, 456.4 feet over all, 75.1 feet beam and 24.6 feet draught.

The engines will be of the twin screw, vertical four cylinder triple expansion type with a combined horsepower of 15,000, and these will accumulate a speed of eighteen knots.

The Connecticut will carry three funnels, two military masts, two main and four secondary turrets, and a main deck central battery. The armor has a total weight of 3982 tons.

STEEL BELT.

On each side amidships there is a steel belt 183 feet long, nine feet three inches wide and 11 inches thick. Forward and aft of this belt is another nine inches thick, covering the magazines. It is ended by six-inch bulkheads. On the lower deck for 284 feet, the armor is six inches thick and on the main deck for 236 feet, where the central battery is, the armor is 7 inches thick. The protected deck is 1½ inches thick in the flat and 2½ inches on the slopes. The main deck is eight inches thick with 1½ inch faces. There are two of these. The barbettes are covered with ten inches of armor and the secondary turrets with six inches of armor, with 6½ inch faces. The conning tower is protected by steel armor nine inches thick and the signal tower with six inches of steel.

HER ARMAMENT.

Her armament will consist of four twelve-inch breech-loading guns, one pair in the forward turret and another aft, and eight eight-inch guns mounted in pairs on four turrets in the superstructure. In the main deck batter there will be twelve seven-inch rapid fire guns, mounted to a broadside. In addition there will be twelve fourteen-pounders, twelve three-pounders, six one-pounders, two one-pound semi-automatics and eight thirty-inch machine guns.

In the magazines she will carry sixty rounds for each 12-inch gun, 100 for each eight-inch gun, 100 rounds for each seven-inch gun, 200 rounds for each three-inch gun, 600 rounds for each three-pounder and 960 rounds for each one-pounder. The coal bunker capacity of the Connecticut is 900 tons normal, but

THE BRAVE OLD WAY.

I say kiss all for one warm kiss; I say "I were better risk the fall, Like Romeo, to venture all." And boldly climb to deadly cliff, Like that savage, Sabine way; I say "I'm a man, I'm a man, I am." Those songs are clinging to this day, The bravest song ever sung or writ, Their loves the love of Juliet, Of Portia, Desdemona, yes, The old true loves are living yet; And we, we love, we weep, we sigh In love with loves that will not die.

What One Man Told Another

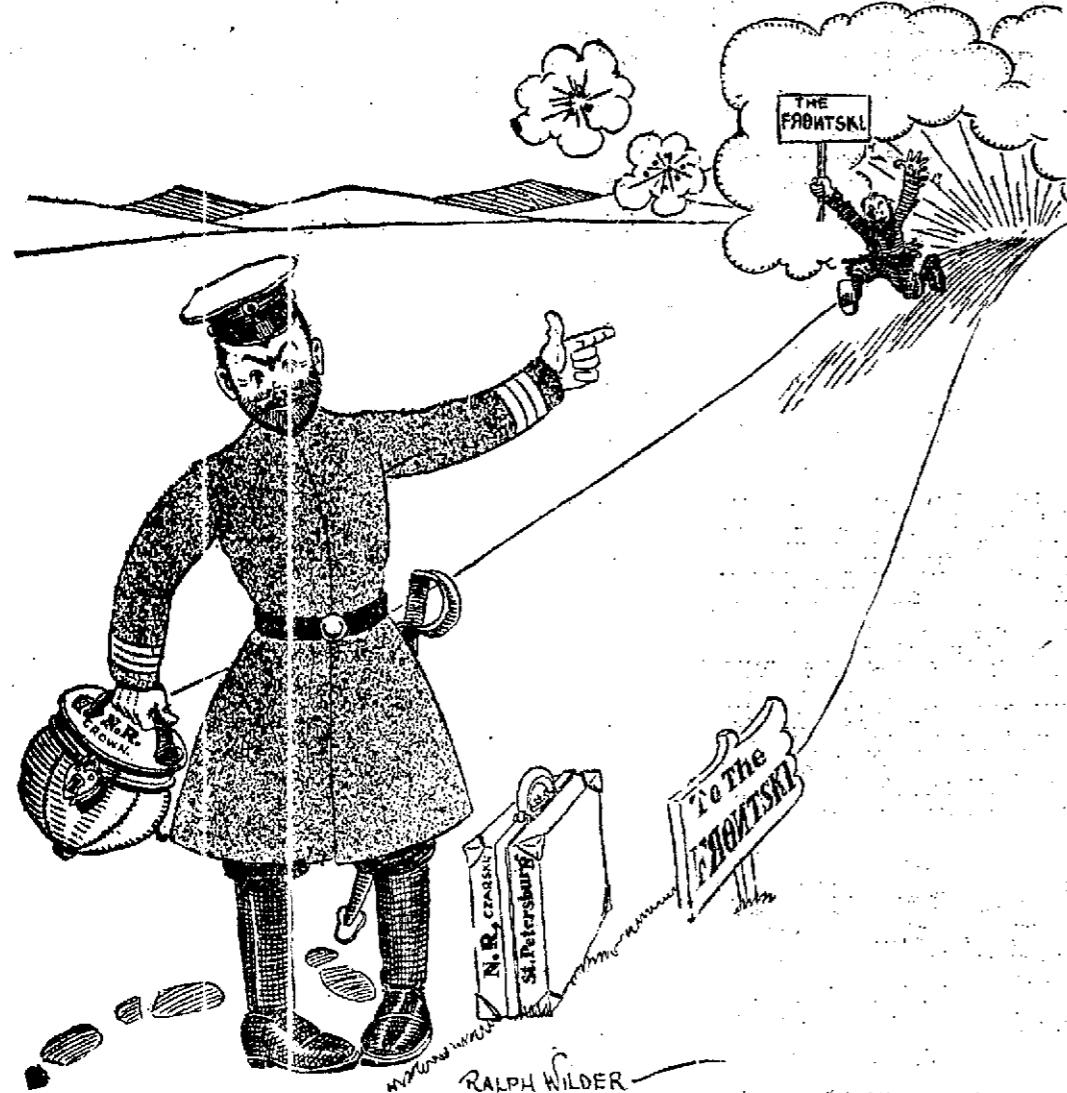

"I'll tell you what's so," said a customer the other day, "I came here to buy my clothes first because a friend told me I would be safe in your hands if blindfolded. I continue to buy here because my own experience has verified my friend's words."

It is pleasant to hear praise, and we do our utmost to deserve it. A large stock—carefully selected—the best made clothes—honest prices and everything guaranteed. Isn't there some merit in the claim that we are 'not like others'? Our customers say there is.

LEVY FOR THE CITY TAXES WHEELER VISITS PARKER

Committee Agrees to U. C. President Calls on Impressive Services Over the Democratic Candidate. Recommend a Rate of \$1.26

GRAVE CLAIMS AN ELK

Remains of F. P. McFeeley.

The Finance Committee of the City Council last night, after conference with City Auditor A. H. Reed, recommended that the tax levy for the current fiscal year be fixed at \$1.26, the same as last year.

Auditor Reed's estimates fixed the levy at \$1.22, but the Council Committee decided to add four cents to that figure for park and boulevard purposes.

In addition to providing for the ordinary expenses of maintenance of the municipal departments the committee makes allowances in the levy for \$6000 for dredging at the city wharf; \$6000 for a new fire engine house at Golden Gate; \$2500 for reconstruction of the fire station; to provide for proper quarters for female and juvenile prisoners; \$600 for fire apparatus at the Linda Vista engine house and an allowance for a new fire engine house at Twelfth and Union streets; \$18,000 for the completion of the boulevard extension of Harrison street from Twentieth to Twenty-fourth streets; \$2200 for expenses of the water rates set in the United States Circuit Court, and allowances for maintaining fire departments around Independence square.

The Auditor's provision for an increase of \$1.26 in the Police Department was cut out, but even so the levy is \$1 for maintenance, 11 cents for high schools, 11 cents for bond interest, and redemption 4 cents for parks and boulevards, total, \$1.26.

The tax necessary to meet interest on the \$1.26, \$1000, which will be levied by the State and county on tax bills, as the bonds are a lien against Oakland school district, which includes property outside of the corporate limits of the city. An ordinance carrying the committee's recommendation will be referred at the Council meeting Monday night. The committee had delayed action on the levy pending the result of the bond election.

KILLED IN THE ISLANDS

GUARD WANTS RANGES

S. E. Damon is Murdered Use Bullets That Go a Long Way and Kill.

HONOLULU, September 28.—S. E. Damon, a member of a prominent local family and connected in a business way with a local banking firm, was murdered by a Porto Rican named Jose Reveira. Mr. Damon was driving home and when near Maunaloa met three Porto Ricans, one of whom was a woman. One of the men took Damon's lantern and when he remonstrated stabbed him in the abdomen. He then drove on to Honolulu but died before reaching the hospital.

The deceased was 30 years of age and leaves a wife and four children, one of whom is dying of meningitis and may not live until tomorrow.

His mother is now in London and his father is prominent here as a banker and financier.

Reveira and his companions have been arrested and the woman has practically made a confession. Public feeling over the occurrence is intense.

The news of the death of S. E. Damon was a shock to his many friends in this city and expressions of regret at his untimely taking away were general among old and young.

The Damon family, with the Castles, Baldwins, Levers and Bishops, are of the most prominent in the Islands, and have been in this city so often that they are almost equally well known here. The son of Samuel Damon has a ways been considered one of the most promising of the younger business men of Honolulu and was considered as having unusual ability. He has been his father's companion and help in all matters and was manager of the large banking firm of Bishop & Co. of which Mr. Damon senior was one of the principals.

A JAPANESE WAR SONG.

"Fire!" comes the word of command: "Boom!" roar out the gunners. Shatter and scatter in the air the enemy's might. Down, down into the deep go the enemy's warships. What joy in the victorious battle! What ardor in the triumphal shout! Hurrah for the empire! Hurrah for the navy!

TORPEDO HAS BEEN LOST

It Is Supposed to Be Floating in the Bay.

SAN FRANCISCO. September 28.—Two torpedoes were lost last Friday from the United States submarine boat Pike, which has been experimenting in San Pablo bay, under the direction of Lieutenant McArthur.

One has been recovered by Italian fishermen.

The other is still at large and may be exploded by a passing vessel.

It is charged with 200 pounds of gun-cotton.

A reward of \$250 is offered for its recovery.

The one already found had lost its compressed air and was practically harmless.

CAPITALISTS ARE WANTED

AMERICAN AND BRITISH MONEY PREFERRED BY HANKOW RAILWAY MANAGERS.

WASHINGTON, September 28.—In view of the approaching transfer to American control from the Belgian managers of the Hankow-Canton Railroad in China, some importance attaches to the following cable received at the State Department today from Minister Conger at Peking:

"In reference to the Hankow railway, if foreign capital is necessary in extending the railway to Chinking, the Americans and British will have the preference, the Chinese Government having definitely promised this."

Mr. Conger adds that he would like to know soon if any American capitalists care to embark into this enterprise.

Judge Shields has ordered judgment and an interlocutory decree entered in the divorce case of Percy Young vs. Miss Pearl Young, for the plaintiff. The custody of the minor child of the marriage was awarded to the plaintiff.

DUNN SAYS HE IS ALIVE

Declares He Did Not Die and Was Buried.

KEPT HIS SHIP TO COURSE

How the Northland Ran on the Monterey Rocks.

PUPILS GO ON A STRIKE

Were Told Assistant School Teacher Was Colored.

SAN FRANCISCO, September 28.—Claiming to be the John Dunn about whom so much trouble has been made for City Undertaker Hagan, a man walked into the Coroner's office last night and said he wanted to put all rumors at rest. "Dunn" he said is the name he goes by but his right name is H. H. Hansen and he lives at 512 Howard street.

Some man who gave the name of John Dunn was ill at the City and County Hospital for a number of weeks and died there. Hagan was to remove the body of a John Daly, who died at the same time Dunn did, but he made a mistake and took Dunn's body from the morgue at the hospital. Mrs. Kate Thompson of 228 Nevada avenue, who claimed to be a sister-in-law of the deceased Dunn, appeared and wanted to claim the body. She was sent in pursuit of Hagan.

"He had buried the body before she arrived at his barn on Guerrero street and then there was a wholesale disinterment of bodies. But none was identified by Mrs. Thompson and she went into court, claiming Hagan was holding the body because she would not pay him \$15. The charge was dismissed by Police Judge Cabaniss for lack of evidence.

Now comes the man who asserts he is the Dunn that Mrs. Thompson was looking for. He did not say anything before this time, he avers, because he wanted to see how much fun he could have out of the trouble being taken about him.

This man has been working as a cook on a steamer for some time. He left his lodgings on Monday of last week as Dunn but when he returned Friday he enjoined everybody to call him Hansen.

The Army and Navy League was out in full force. The Roosevelt Republican League, dressed in khaki uniforms and commanded by Major C. M. Mayberry, made a very handsome appearance. The Capitol Yacht Club was commanded by Deputy Secretary of State John H. Chase. The State Printing Office Republican Club was commanded by C. E. Hickey, the Young Voters Club by C. B. B. and the Colored Roosevelt Club by George Marchant.

Several carriages were in line, the leading one containing Governor Pardoe, Senator James McLachlan, D. E. McKinley, Republican aspirant for Congress in this district, Secretary of State Cuyler. The parade was loudly cheered all along the line of march.

The parade ended at the Old Pavilion, where an audience of more than 1000 persons was gathered by Congressman McLachlan and Hon. D. E. Cuyler on the issues of the day and the campaign.

The speakers were frequently interrupted by storms of cheers and applause, and cheers were given for Roosevelt, Pardoe, the two speakers and the Republican party.

The investigation has not been completed.

SANTA FE IS WRECKED

ALBUQUERQUE, N. M., September 28.—Santa Fe passenger train No. 7, westbound, was wrecked about six miles below Albuquerque rods by the spreading of the rails.

Two baggage cars, a mail car and a tourist sleeper were piled up in the ditch, but the locomotive and four car cars did not leave the track.

A negro tramp who was riding on the platform was with the two baggage cars, was crushed to death.

Nobody else was injured.

LINCOLN'S INAUGURAL HAT.

When Lincoln was inaugurated the first time there was one little incident that impressed those who saw it. The president-elect came forward upon the platform prepared at the east front of the capitol, with his natural awkwardness increased by the circumstances of the occasion, and in which it was evident he felt exceedingly uncomfortable. The stiff dress coat, vest and pantaloons on black broadcloth were not given to himself to disturb his mental and physical equanimity, but to those were other incumbrances in the shape of a brand new silk hat and a ponderous gold-headed cane.

The cane he managed to put away in a corner, but the disposition of the hat perplexed him greatly. It was too good to throw away, too nice, as he thought, to rest upon a rough board, so, for a minute at least, poor Lincoln stood there in it, gazing despondently and seeking in vain for a safe place to deposit it.

Douglas, who sat immediately in the rear, saw the embarrassment of his rival, and, rising, took the shining beaver from his pocket, bothered over it and held it during the delivery of his inaugural address.

Probably had Stephen A. Douglas told, five years before, that he was destined to hold the hat of Abraham Lincoln while that individual was appearing for the first time as president of the United States the "Little Giant" would have laughed at the very idea.

"In reference to the Hankow railway, if foreign capital is necessary in extending the railway to Chinking, the Americans and British will have the preference, the Chinese Government having definitely promised this."

Mr. Conger adds that he would like to know soon if any American capitalists care to embark into this enterprise.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which the receive and the effort which they make comes the greater part of that beautiful development which is so essential to their health when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts should be such as parents would sanction because its composition is known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor is a gentle action and its beneficial effects is seen in the faces of the children.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without irritating, or nauseating and which cleanses the system effectually without producing that constipated habit which results from the use of old time cathartics and modern irritants and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood strong, healthy and happy, do not give them in education when medicines are not needed and when nature can best afford them only the simple, pleasant and gentle—Syrup of Figs.

It is only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which insidious dealers sometimes offer to increase their profits. The genuine article may be bought anywhere of all reliable druggists at fifty cents per bottle. Please to remember, the full name of the Company—

CALIFORNIA FIG SYRUP CO. is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only.

TEAM IS FORMED BY THE STUDENTS OF CALIFORNIA COLLEGE.

California College in East Oakland will be in line for athletics this year as well as the larger institutions of learning about the bay.

The athletes of the school have commenced the good work by organizing a basket ball team, the members of which are training faithfully for the match games in which they will no doubt participate.

Every evening the agile youths can be seen tossing the sphere around the court, practicing goals, and perfecting their team work, and present indication favors the formation of a squad of players that will be a credit to the school.

They have secured the services of R. C. Pierce as coach and are fortunate in doing so, as he belonged to a former California college team that was noed for its having defeated some of the best line-ups in the section.

Pierce knows every trick in the game and will prove quite an acquisition to the team.

AUTOS ARE HELD FOR DUTY.

MACHINES FOR VANDEBILT RACE ARE DETAILED BY CUSTOM OFFICERS

NEW YORK September 29—Four French automobiles brought here from Paris to compete in the Vanderbilt cup race on Long Island October 8 are held at the Custom House pending the payment of duties amounting to \$ 8,000. The cars are ninety horse-power each and were shipped on a French steamer last Sunday.

By arrangement with the Treasury Department all the foreign cars entered for the race were it is decided by the consuls to have been admitted duty-free, on condition that they were to be shipped with a pilot. However, the machines were up-rated at \$10,000 each and the Custom House officials announced that they would be held until the full sum had been paid.

The hitch occurred because of the fact that the ship's pilot failed to declare their purpose when consigning the machines so they ended this point in the same category as machines that are brought over to be sold.

The cars are favorites for the Vanderbilt race, which is to be held on October 8th for that event and the fourth being a substitute. A special representative was sent to Washington to negotiate with the Treasury Department but failed and it is likely that on y one of the automobiles will be taken from the Custom House for the race.

STANFORD DEFEATS OAKLAND HIGH.

By defeating the Oakland High School team at Palo Alto yesterday the Stanfurd Freshmen added another victory to their list for this season. The touch downs were made early in the first half, and from that time until the close of the second period no scoring was indulged in by either side.

Just before time was called in the second half Quarterback Fenton stalled for a drop kick and from the twenty-five yard line he booted the ball fair between the goal posts making one of the prettiest plays of the season and adding four points to the Stanford score which stood at the end of the game. It was two and runs one for six and five yards.

Fenton and Vandervort were easily the stars for the university players the former showing wonderful form a running in punts. His kicking also saved the Freshmen from being scored on at several critical times. Vandervort distinguished himself by making the only two touch downs in the game. He made two end runs one for six and five yards

and the other for thirty. The Oakland team showed themselves to good advantage in the second half being the steader of the two.

The ends of the Oakland eleven were very weak and most of the Freshmen were made to end runs. The Oakland line was made up of two weak men on critical occasions. The weakest part of the Freshman team was the line though which most of Oakland's gains were made.

The first half was made up of a few minutes and Vandervort had crossed the Oakland goal line for the second exactly three minutes afterward. The Oakland team was made up of two weak men and played better ball during the remainder of the first half which ended with the goal line.

In the drop kick which ended the second half this period was clearly to the advantage of the Oakland team. The Freshmen were battered for gain after gain holding desperately now and then but were unable to put the ball in the end zone in their hands.

The kicking was exhausting to the Oakland backs and the latter part of the half was a punting duel between Fenton and the Freshman quarterback making the game a hard one for the Freshman team.

ELDERLY ITALIAN ARRESTED AT
EMERYVILLE RELEASED
FROM CUSTODY.

EMERYVILLE, September 29.—The elderly Italian was released from his custody this morning.

The police have no record of his name.

He was arrested last Saturday for disturbing the peace by Deputy Marshal Hickie.

His son, who is married and occupies a portion of the house of his father, on Forty-fourth street, near Linden, has complained to Officer Hickie of his parent's misconduct, alleging that the old gentleman frequently became obstreperous, particularly after indulging in the juice of the grape, and proceeded to throw chairs about and generally disturb the family peace at quiet. Young Perente promised to be on hand Monday morning to swear a complaint against his father, who was then terrorizing the household, and Officer Hickie took the elderly Italian into custody. The son failed to appear, however, and the charge was dropped by the officer.

Perente was taken to the County Jail and it was then he gave evidence of possessing a vocal strength adequate of proportion to his diminutive frame, for he objected strenuously and loudly all the way.

Yesterday afternoon he was brought before Judge Coburn and the case was dismissed on account of lack of evidence. It appears that the son and wife have left the neighborhood and are engaged to find a new home.

Their present quarters in the L. O. P. Hall will only be temporary, as work will be commenced on the new Masonic Temple in the near future.

MEETINGS PROGRESSING.

The revival meetings being conducted by the Presbyterians in San Leandro are progressing very favorably, and those who have the services in charge are well pleased with the results attained thus far. The large tent pitched at the corner of San Leandro avenue and Hepburn street, is filled nightly with people of every denomination.

PERSONAL MENTION.

Misses Julia and Clesey Carroll of Livermore, who have been spending the past few days with Mrs. Gorman have returned to their home.

William Curtis is engaged in erecting an oyster house for the Smith Oyster Company. The building is being constructed on piles in San Leandro Bay.

J. Gramund has changed his quarters from Haywards avenue to Davis street.

William August recently picked up a eight-pound tomato on his farm near this city, and it is now on exhibition in the window of Morgan's grocery store.

Stunning belts of tooled leather are seen in the jewelers' and art shops.

Pears' Soap is found in millions of homes the world over.

Sold everywhere.

The race-track opened yesterday, the reconstruction of the various racecourses that are situated in the neighboring and within a short time every stall will be occupied. The work of repairing at the track is fast progressing to a close and a few more weeks will see everything in first-class shape.

REPUBLICAN RALLY IN THE COLLEGE TOWN

JOHN M. FOY, CHAIRMAN OF THE MEETING.

Speeches Are Made by Senator Lukens, W. H. Waste, H. D. Rowe and John P. Cook.

BERKELEY, September 29.—A crowning feature of the registration campaign in Berkeley was the rally held last night in the lower hall of the Odd Fellows' Building. When the rolls were finally closed it was announced that the enrollment of voters had reached nearly 4,000, or an increase of 80 per cent over the last registration.

There was a distinguished company at the gathering last evening, and among the speakers were prominent candidates renominated for their old positions. Pipes and tobacco were passed around, and an entertaining program of music and monologue interspersed the addresses.

SECRETARY FOY CHAIRMAN. John M. Foy, secretary of the State Board of Harbor Commissioners, acted as chairman of the evening, which was held under the auspices of the Berkeley Republican Club.

In calling the gathering to order, Chairman Foy said:

"The meeting is held for the purpose of allowing all citizens a last chance to register. It has been reported that Alameda County and Berkeley are to have light registration, but I think that the returns will show that the enrollment of voters is heavier than it has ever been. The extent of the voter fixes the presentation of a convention to the Republicans, and it is to have just as many delegates as it possibly can. The College Town was in the lead at Sacramento and had the only live delegation at Santa Cruz."

"I am glad to see the good-natured rivalry between Alameda and Berkeley over registration, but if Alameda has equaled us in the past she will never be able to again in the future."

MUSICAL PROGRAM.

The Berkeley Quartette, composed of Clinton Morse, Howard Merrill, Dr. Clinton and Frank Argall, were called on for the musical entertainment. After responding to an encomium, State Senator G. Russ Lukens was introduced as a candidate "who had been so satisfactory to his constituents that he had been nominated without opposition for another term by the Legislature."

STATE SENATOR LUKENS.

Senator Lukens, who was received with great applause, spoke in part as follows:

"I am very glad to be able to be present at this sociable evening of ours. You are first of all to be complimented for having done a little service to the Alameda in the registration of voters. The rolls are now with Berkeley and it is right that they should be."

"Berkeley is a familiar spot to me, and this evening in this hall reminds me of the days when Billy West and I used to participate in student rallies here. Those were the days that we were young and full of power, to make ourselves useful to the people."

"Going as far back as 1888 and 1889, I can clearly recall all the events surrounding my graduation from the University and of the events I witnessed following. The events that immediately followed the election of President Harrison are clear in my memory. The Republicans revived the industries of the country, and the result of the tariff until the most important was added."

"The people of the country forgot their lessons and called Cleveland to the Presidential chair. I think that if a country was ever punished for its misjudgment it was the United States. Then came the McKinley administration, and after he had passed to immortality he was succeeded by the

inchoate Roosevelt, who has maintained the policy of his revered predecessor and made our country respected abroad and confided in at home."

LOCAL POLITICAL ISSUES.

Continuing his remarks, Senator Lukens said:

"We have a number of local matters that are directly called to our attention. I am glad to meet my old Legislature associate, William H. Waste, he is tonight. I want to tell you some of the things I personally know about him. At the last session of the Legislature he received the extraordinary honor of being placed at the head of a special committee heretofore unknown to the State. It was the University committee—an organization that at one commanded the respect of the Legislature, and which, through the efforts of Chairman Waste, secured the name of the California Hall that is now being erected on the campus at a cost of a quarter of a million dollars."

DANGEROUS SENTIMENT.

"The meeting is held for the purpose of allowing all citizens a last chance to register. It has been reported that Alameda County and Berkeley are to have light registration, but I think that the returns will show that the enrollment of voters is heavier than it has ever been. The extent of the voter fixes the presentation of a convention to the Republicans, and it is to have just as many delegates as it possibly can. The College Town was in the lead at Sacramento and had the only live delegation at Santa Cruz."

"I am glad to see the good-natured rivalry between Alameda and Berkeley over registration, but if Alameda has equaled us in the past she will never be able to again in the future."

WASTE'S SPEECH.

After some dull stories by George Dumm, the laughter produced by Assemblyman Waste was introduced amidst a dozen rounds of applause. The speaker was a trifle embarrassed to be called to an attraction at a registration meeting, where there was such excellent company.

Tonight I have the pleasure of meeting you all again. The train is to stop by and will take the opportunity to speak a word for the other candidates on the ticket," remarked the Waste. "I am sorry that the head of the ticket, State Senator G. Russ Lukens, who is to succeed Congressman Virgil H. Mervin, is not here tonight. All one has to do is to look Jim Knowland in the face to realize that he is a sturdy and sterling man, and will be a good representative. Republicans placed Knowland in nomination, and I voted for him. He will fill the bill. He is held in great esteem at Sacramento and knowing what he has done in the past, I am sure he will do well in the future."

SHOP AND YARD NOTES.

The father of Jack O'Brien, who was drowned yesterday after he fell into the bay in the ferry-boat Berkeley, is employed in the tin-shop at the West Oakland yards.

Locomotive 1109 arrived at the yards yesterday for repairs. A good deal of work will have to be done to put the locomotive in proper shape and it will probably remain in the shops about a month.

The ferry-boat Berkeley is still tied up at the 100-foot gauge pier for the purpose of allowing workmen to make some minor repairs.

The Contra Costa Water Company has installed a new water meter on the main supplying water to the shops and yards.

UNIVERSITY INTERESTS.

"None has got to be asked for the Uni-

versity of California. Additional appropriations are needed for new buildings and it is apparent that at the present time such a summoning is needed at the gathering of the lawmakers of the State. An attempt is to be made to take the agricultural building away from Berkeley and the western will have to be mapped out. So you can easily see how important it is that Lukens, who is a graduate of the local institution, should be reelected."

ROWE AND MITCHELL.

Assemblyman Waste then paid a glowing tribute to Supervisors Harry D. Rowe and John P. Cook, and as he took his seat, the band sang "For He's a Jolly Good Fellow."

ROWE'S GOOD WORK.

After a piano solo and an encore, by Virgil Shuey, Supervisor Rowe was called on to address the meeting. He said in part:

"I do not know why you should call on me for this evening, as I can add nothing to the splendid sentiments that have been voted by Senator Lukens and Assemblyman Waste on both National and local lines. I have watched the careers of these gentlemen, your representatives and I know that they all bill exactly at Sacramento. We would make a grave mistake to entertain an idea of making any changes."

"My own record is before you and it remains for you to decide whether you wish me returned to the place I have held."

"Going to the fact that Berkeley is a municipality I have not been able to run any roads or improve those already laid in our city. But I have done the next best and given you the tunnel road and improved the streets."

The unanimous applause greeted this announcement, as did the statement that he had placed Arthur Elston, a University of California graduate, on the County Board of Education, which he had recently been named C. L. Eidenbach of this city as his successor.

A BERKELEY SUPERVISOR.

Supervisor Rowe declared that he would aid every movement looking to give Berkeley a supervisory district of its own. This announcement was heartily applauded.

COUNTY CLERK COOK.

County Clerk Cook was introduced as the man whom everybody knows. He said in part:

"I am glad to say that the rumor that there would be a light registration record in the Alameda County election is not true. Berkeley has lost the cities that have made the biggest increase in the enrollment of voters. Up to five o'clock the registration for this city had reached 31,500, as against 29,000 in the same time last year. Before the polls close, Berkeley will have gained about 3,000 voters in two regis."

"Before the polls close, Berkeley will have a population of 40,000."

County Clerk Cook then thanked the deputy registrars, whom he said could not be compensated under the law.

CALL ON A DEMOCRAT.

"To show that this is not altogether a Republican town, I will call on a Democrat, Harry E. Griffith."

Despite the fact that an overwhelming majority of those present were Republicans, Griffith made a graceful speech. He was received with applause, and he is the man that wherever he is chosen to be President of the people of the entire country would back the lucky candidate.

STUDENT PRESIDENT.

Philip M. Carey, the president of the University of California Republican Club, was called on at the close of the meeting. He laid particular stress on the fact that Senator Lukens and Assemblyman Waste, who have done so much for the University of California, should be succeeded in their former offices. He declared it would take men of their caliber to retain the agricultural building of the University in Berkeley and to secure appropriations for the future growth of the educational institution.

Beaumont, a soprano, and a monologue by Milton Schwartz closed the program.

The deputy clerks kept up the registration of voters until midnight, while the evening was being closed in a pleasant social way, making the rally the most successful yet held in Berkeley.

ASSEMBLYMAN WASTE WATCHFUL.

"I show you what a careful man you are," continued Senator Lukens. "I am glad to see you of another little incident. A bill will come to you from the legislature that had not been passed, it would not have given State land in the northern county to the railroads, but a portion of Alameda County would have done as well. With his shrewdness, Waste, I am sure, was about to take place and his eloquence in the defeat of the bill."

"Furthermore, he is a close friend to Governor Pardee. I am quite sure you will be anxious to return to the initiative who is so close to the administration. In fact, let us send back the Governor, the Governor and Assemblyman, who is working under the program that has made the country famous throughout the world."

The "divorce train" obtained its name through the fact that it is a train running between Oakland and Reno, Nev., upon which a man or woman divorced hastens to Reno to again try matrimony. The train is also used by eloping couples because of the fact that it makes fast stops and can impede the train in fast time.

The "divorce train" has been in operation a number of years and received its name when couples were making a hasty practice of seeking a minister in the mining State.

Other changes in the time schedule have been made by the Southern Pacific Company. The change affects the Western, Sacramento and San Joaquin divisions. Changes have also been made on the time card of the railroad men throughout the world."
